

## What if you could...

- See the full picture—understand all the activities and resources needed for a successful product launch
- Get everyone on the same page—gain upfront, cross-functional alignment
- Streamline the process—build your plan in days instead of months
- Provide the answers—easily update management and investors
- Maximize flexibility—modify timelines, resources, and staffing plans when changes inevitably happen.
- Take a deep breath—Have peace of mind using a validated, benchmarked plan based on industry best practices

You Worry  
about the  
Clinical Trials—  
We'll Help You  
Get Your Asset  
to Market

# Built for You!

Corval offers **three options** to fit your unique circumstances—all powered by our innovative technology!

## MOST POPULAR

### Corval Snapshot

#### Who is it for?

Pre-commercial biopharma companies and consultants

#### What do I get?

A trimmed-down, right-sized version for those who need **a quick, high-level strategic roadmap with a budget and hiring plan**. This nimble gutcheck can help you:

- Begin crucial **early-stage commercialization** planning by identifying critical steps
- Prepare for **strategic discussions with stakeholders**, including investors and potential partners
- Provide **validated data and context** for executive planning presentations

### Corval Platform

#### Who is it for?

Biopharma companies and consultants building and implementing their plan

#### What do I get?

A unique, flexible commercialization roadmap, budget, and hiring plan so you know what, when, and how much.

- A dynamic, configurable, cross-functional **3- to 5-year strategic roadmap** pre-populated with commercialization objectives, activities with interdependencies
- An **itemized budget and hiring plan** covering headcount, target salaries, and operational fees
- A **central planning space** to keep everyone aligned to track key assumptions, decisions, insights, and changes along the way
- And so much more!

### Corval Enterprise

#### Who is it for?

For consultants, multi-service providers, and pharmaceutical companies supporting and managing a diverse commercialization planning portfolio

#### What do I get?

Everything in the **Corval Platform** plus the ability to analyze and manage your portfolio across all accounts in a single source of truth.

- Create a **market advantage** with dynamic, real-time strategic roadmap planning
- Provide an innovative and collaborative **client/consultant interface** for support and transparency across all functions
- Increase **customer satisfaction**

**Bring your asset to life** with the only cloud-based strategic planning platform that enables teams to quickly create a tailored, multi-year commercialization roadmap with a budget and hiring plan.

With detailed recommendations on **what, when, and how much**, the Corval platform empowers biopharma leaders, consultants, multi-service providers, and pharmaceutical companies to navigate the commercialization process with confidence.
